

In November 2009 we consulted with the pupils of Staplecross Methodist Primary School

They were asked to answer two questions 'What do you like most about Ewhurst Green, Staplecross and Cripps Corner?' and 'What would you like to build, buy or do to please the children who live or go to school here?' They were also invited to illustrate their answers.

35 children participated in this part of the consultation process.

19 children said that they liked the friendly atmosphere, peace and quiet and the countryside most and 11 liked the play park at Staplecross Paying Field best.

22 children would like more play equipment and mentioned new swings, a bigger roundabout and a tree house. 6 children would like a nature trail and a pond.

The best drawing and some of the quotes are included here.

'I like Staplecross because of the park. I also like the shop because it is useful. I like the fact that everywhere is quiet and peaceful. There is something for almost everyone to do' EMILY

'A bigger park for the children to play in.

A bike track through the woods, one with ramps and one flat' RHIANNON

'I like the way that it is never boring' THOMAS
